BE MINE

BE MINE

Completely customizable

BeMine vuole essere la sintesi del Know How produttivo dell'azienda per creare un oggetto dalle infinite combinazioni estetiche e realizza l'integrazione totale fra porta e pareti: una sintesi sempre piesclusiva fra elementi d'arredo e architettura d'interni. La porta è oggetto di design, nasce per dare corpo alla prima impressione di un ambiente: originalità, unicità, personalizzazione. Alluminio, legno e pelle, grazie alla loro armoniosa intersecazione con altri materiali innovativi, consentono a BeMine una personalizzazione BeSpoke "Su Misura" unica nel suo genere.

Porte che interpretano lo spazio d'ingresso come esperienza da rendere memorabile, un sottile profilo in alluminio disegna il contorno di una superficie pura che vive di riflessi e della forza dei colori. Caratterizzata dalle finiture esclusive della collezione Naurelle e dall'introduzione di una nuova materia: il Grès Marble, una preziosa ceramica resinata e smaltata effetto marmo.

Pura superficie che introduce un ulteriore elemento di caratterizzazione estetica grazie allo stipite con inserto.

BeMine is the demonstration of the company's production know-how in creating an object that can be arranged in infinite aesthetic combinations. It creates total integration of doors with walls: an increasingly exclusive relationship between furnishings and interior architecture. The door is a design object, and was created to provide the first impression of a room: originality, uniqueness and customisation. Aluminium, wood and leather, through a harmonious interaction with other innovative materials, allow BeMine to become a fully customised option that is one of a kind.

Doors that interpret an entry way as an experience to remember, a thin aluminium profile defines the edge of of a pure surface that comes alive through vibrant reflections and the strength of colour.

Characterised by Naurelle exclusive finishes and a new material, Grès Marble, a precious ceramic finishe with resin and enamel to achieve a marbled effect.

Pure surfaces that introduce an additional characteristic aesthetic element with a jamb that has an insert.

BeMine хочет быть синтезом производственного ноу-хау компании для создания предмета с бесконечными эстетическими сочетаниями и полного объединения двери и стен: синтезом, все более эксклюзивным, между элементами оформления и архитектурой интерьера. Дверь - это дизайнерский предмет, который рождается для того, чтобы воплотить первое впечатление от помещения: оригинальность, уникальность, индивидуальность. Алюминий, дерево и кожа благодаря гармоничному переплетению с другими инновационными материалами обеспечивают BeMine персонализацию BeSpoke "по мерке", единственную в своем роде.

Двери, интерпретирующие входное пространство как ощущение, которое должно запомниться. Тонкий алюминиевый профиль очерчивает контуры чистой поверхности, подчеркиваемой отблесками и силой цветов. Серия характеризуется эксклюзивными отделками Naurelle и введением нового материала - Grès Marble, - ценной керамики, пропитанной смолой и покрытой глазурью с эффектом мрамора.

Чистая поверхность, которая вносит дополнительный элемент в эстетику благодаря дверной коробке со вставкой.

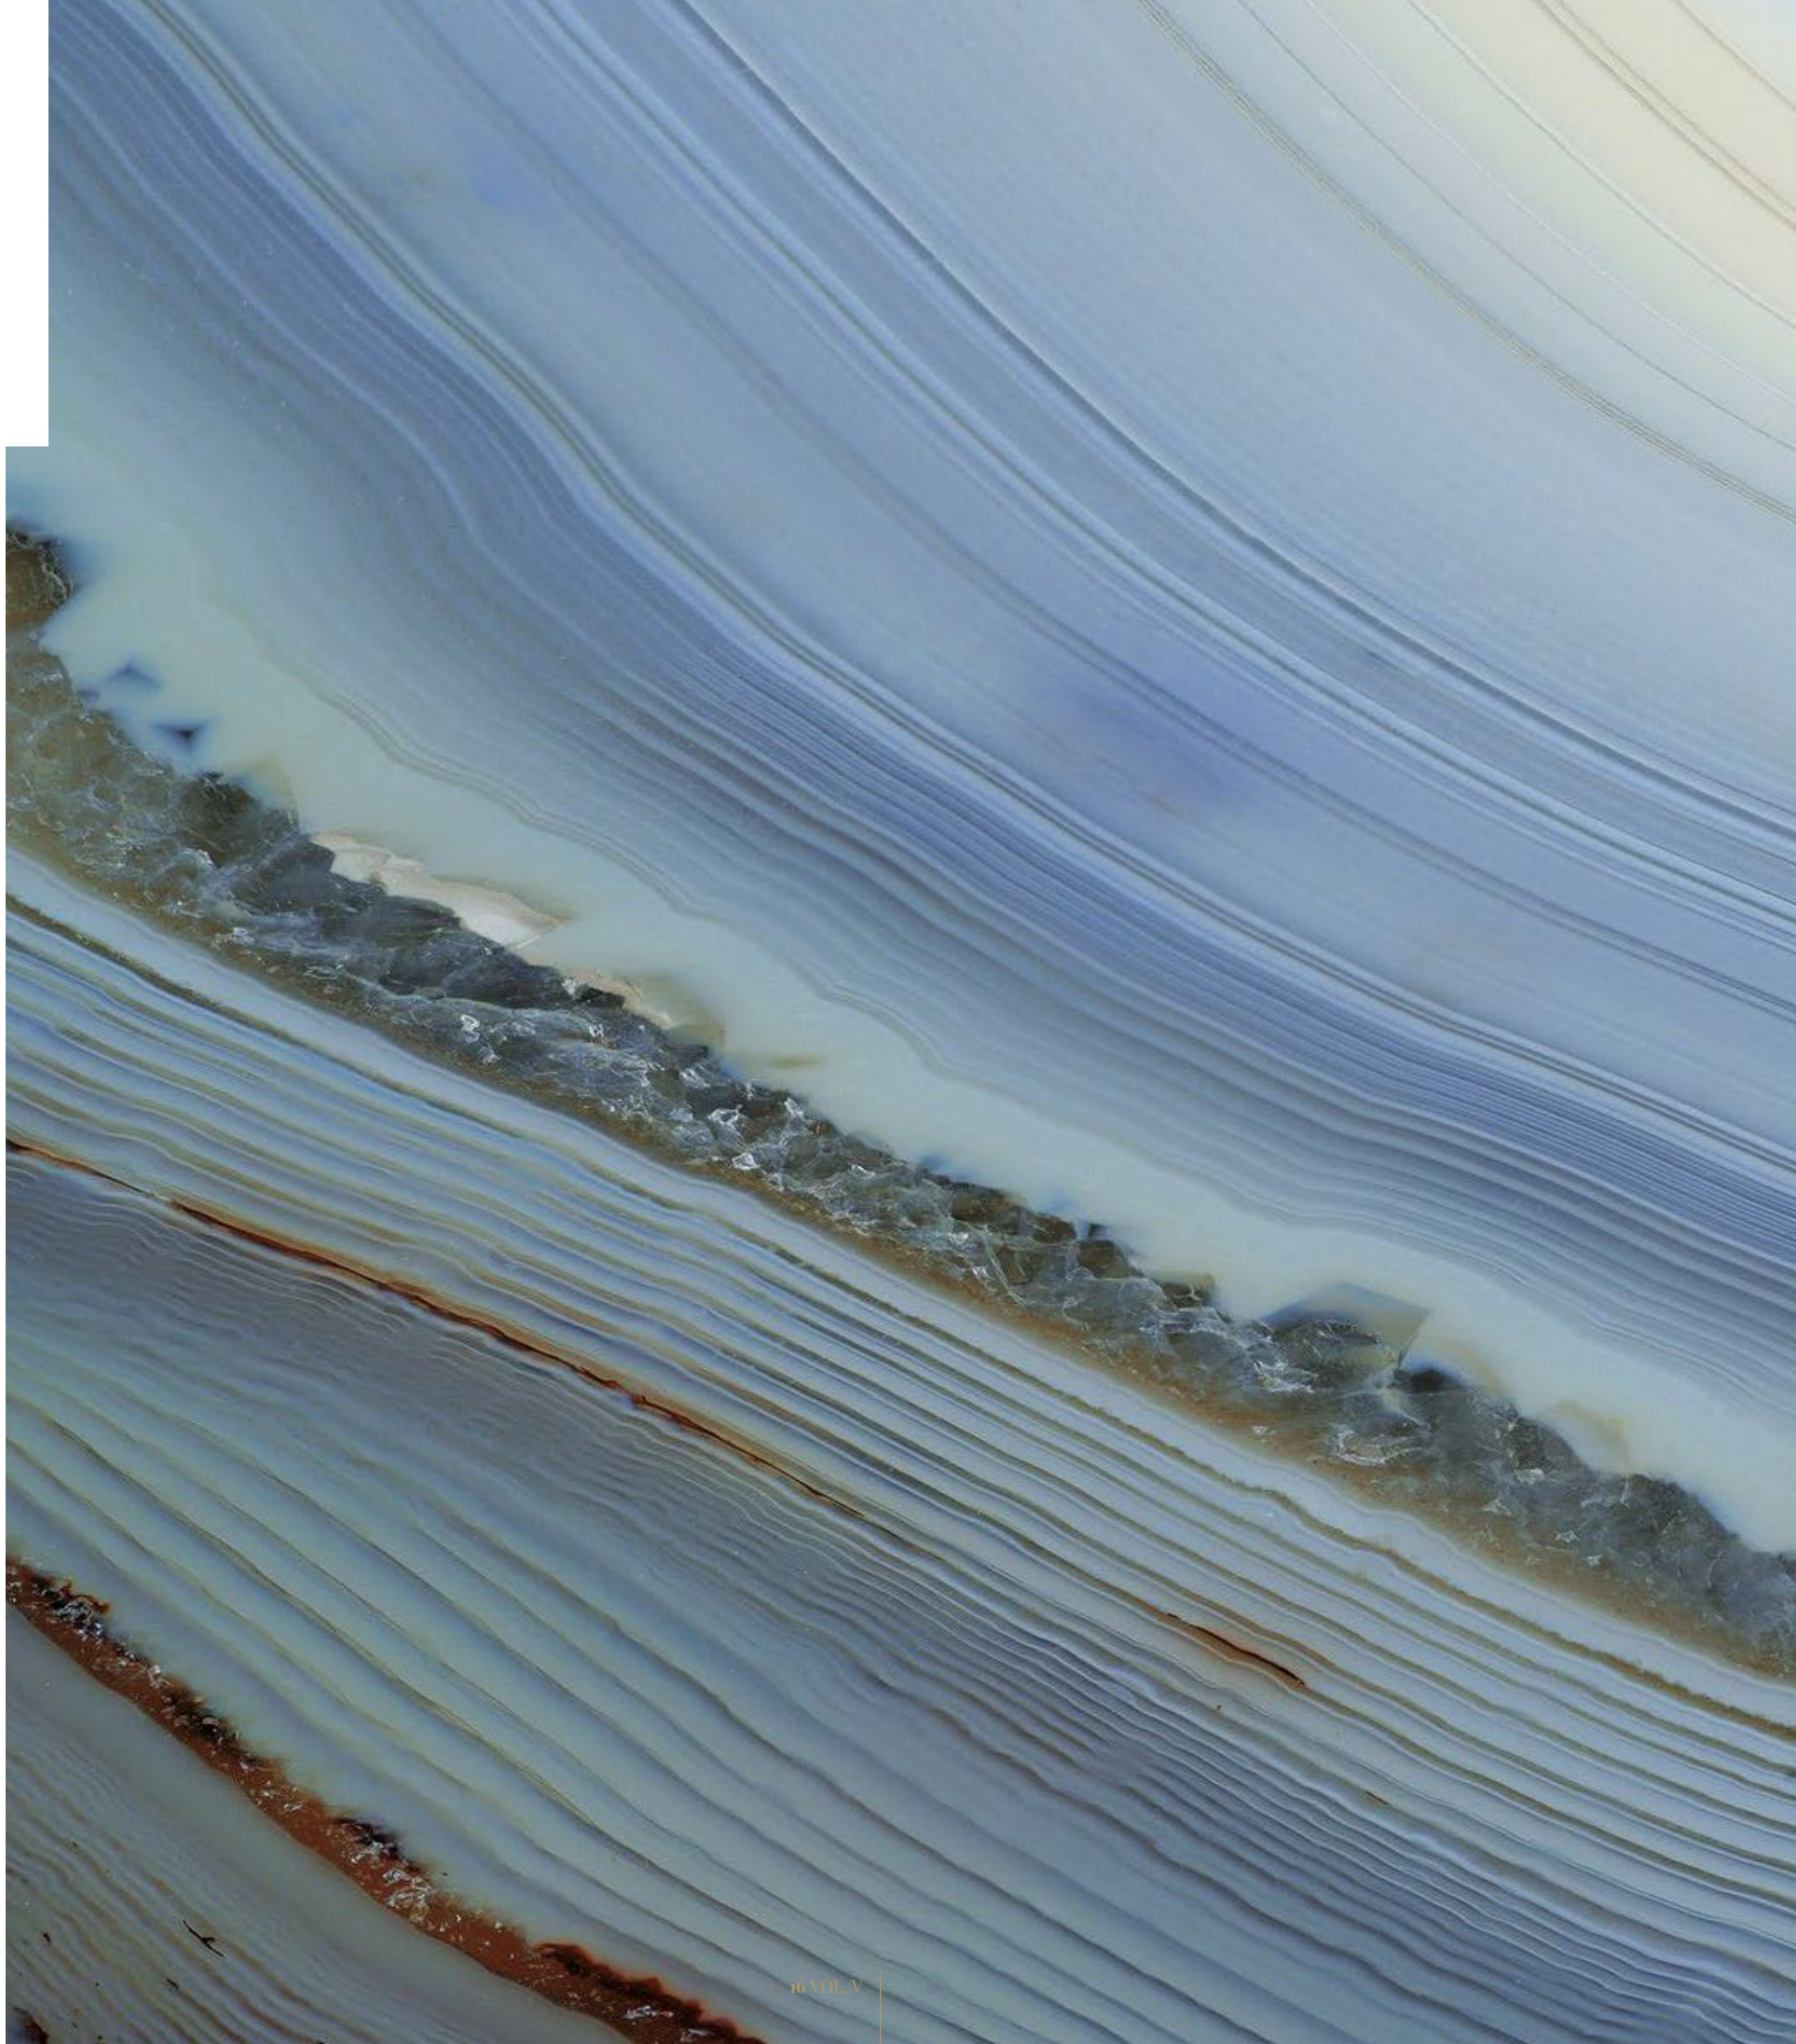

BeMine期望成为企业生产技术诀窍的精髓，以创造一种具备无限美感组合的物品，实现门和墙壁完全整合的目标：是一种介于室内建筑与家具元素之间更专属的精髓。门，是需要设计的物品，是为了赋予环境第一印象而诞生：原创、独特、个性化。铝材、木材和皮料，由于它们与其他创新材料的和谐交会，允许了BeMine个性化「量身定制」BeSpoke，是同类产品独一无二的。

门，诠释着入口空间，犹如给予一种令人难忘的经验，纤细的铝边框，为纯净的表面定出轮廓，凸显其反射与色彩的力度。以Naurelle系列的独特面饰与所采用的全新材料展现独特：大理石纹路

炆瓷，是一种展现大理石效果的珍贵树脂和珐琅陶瓷。
纯净的表面，由于带嵌饰的门框，增添了另一个美感特色的元素。

Be unique

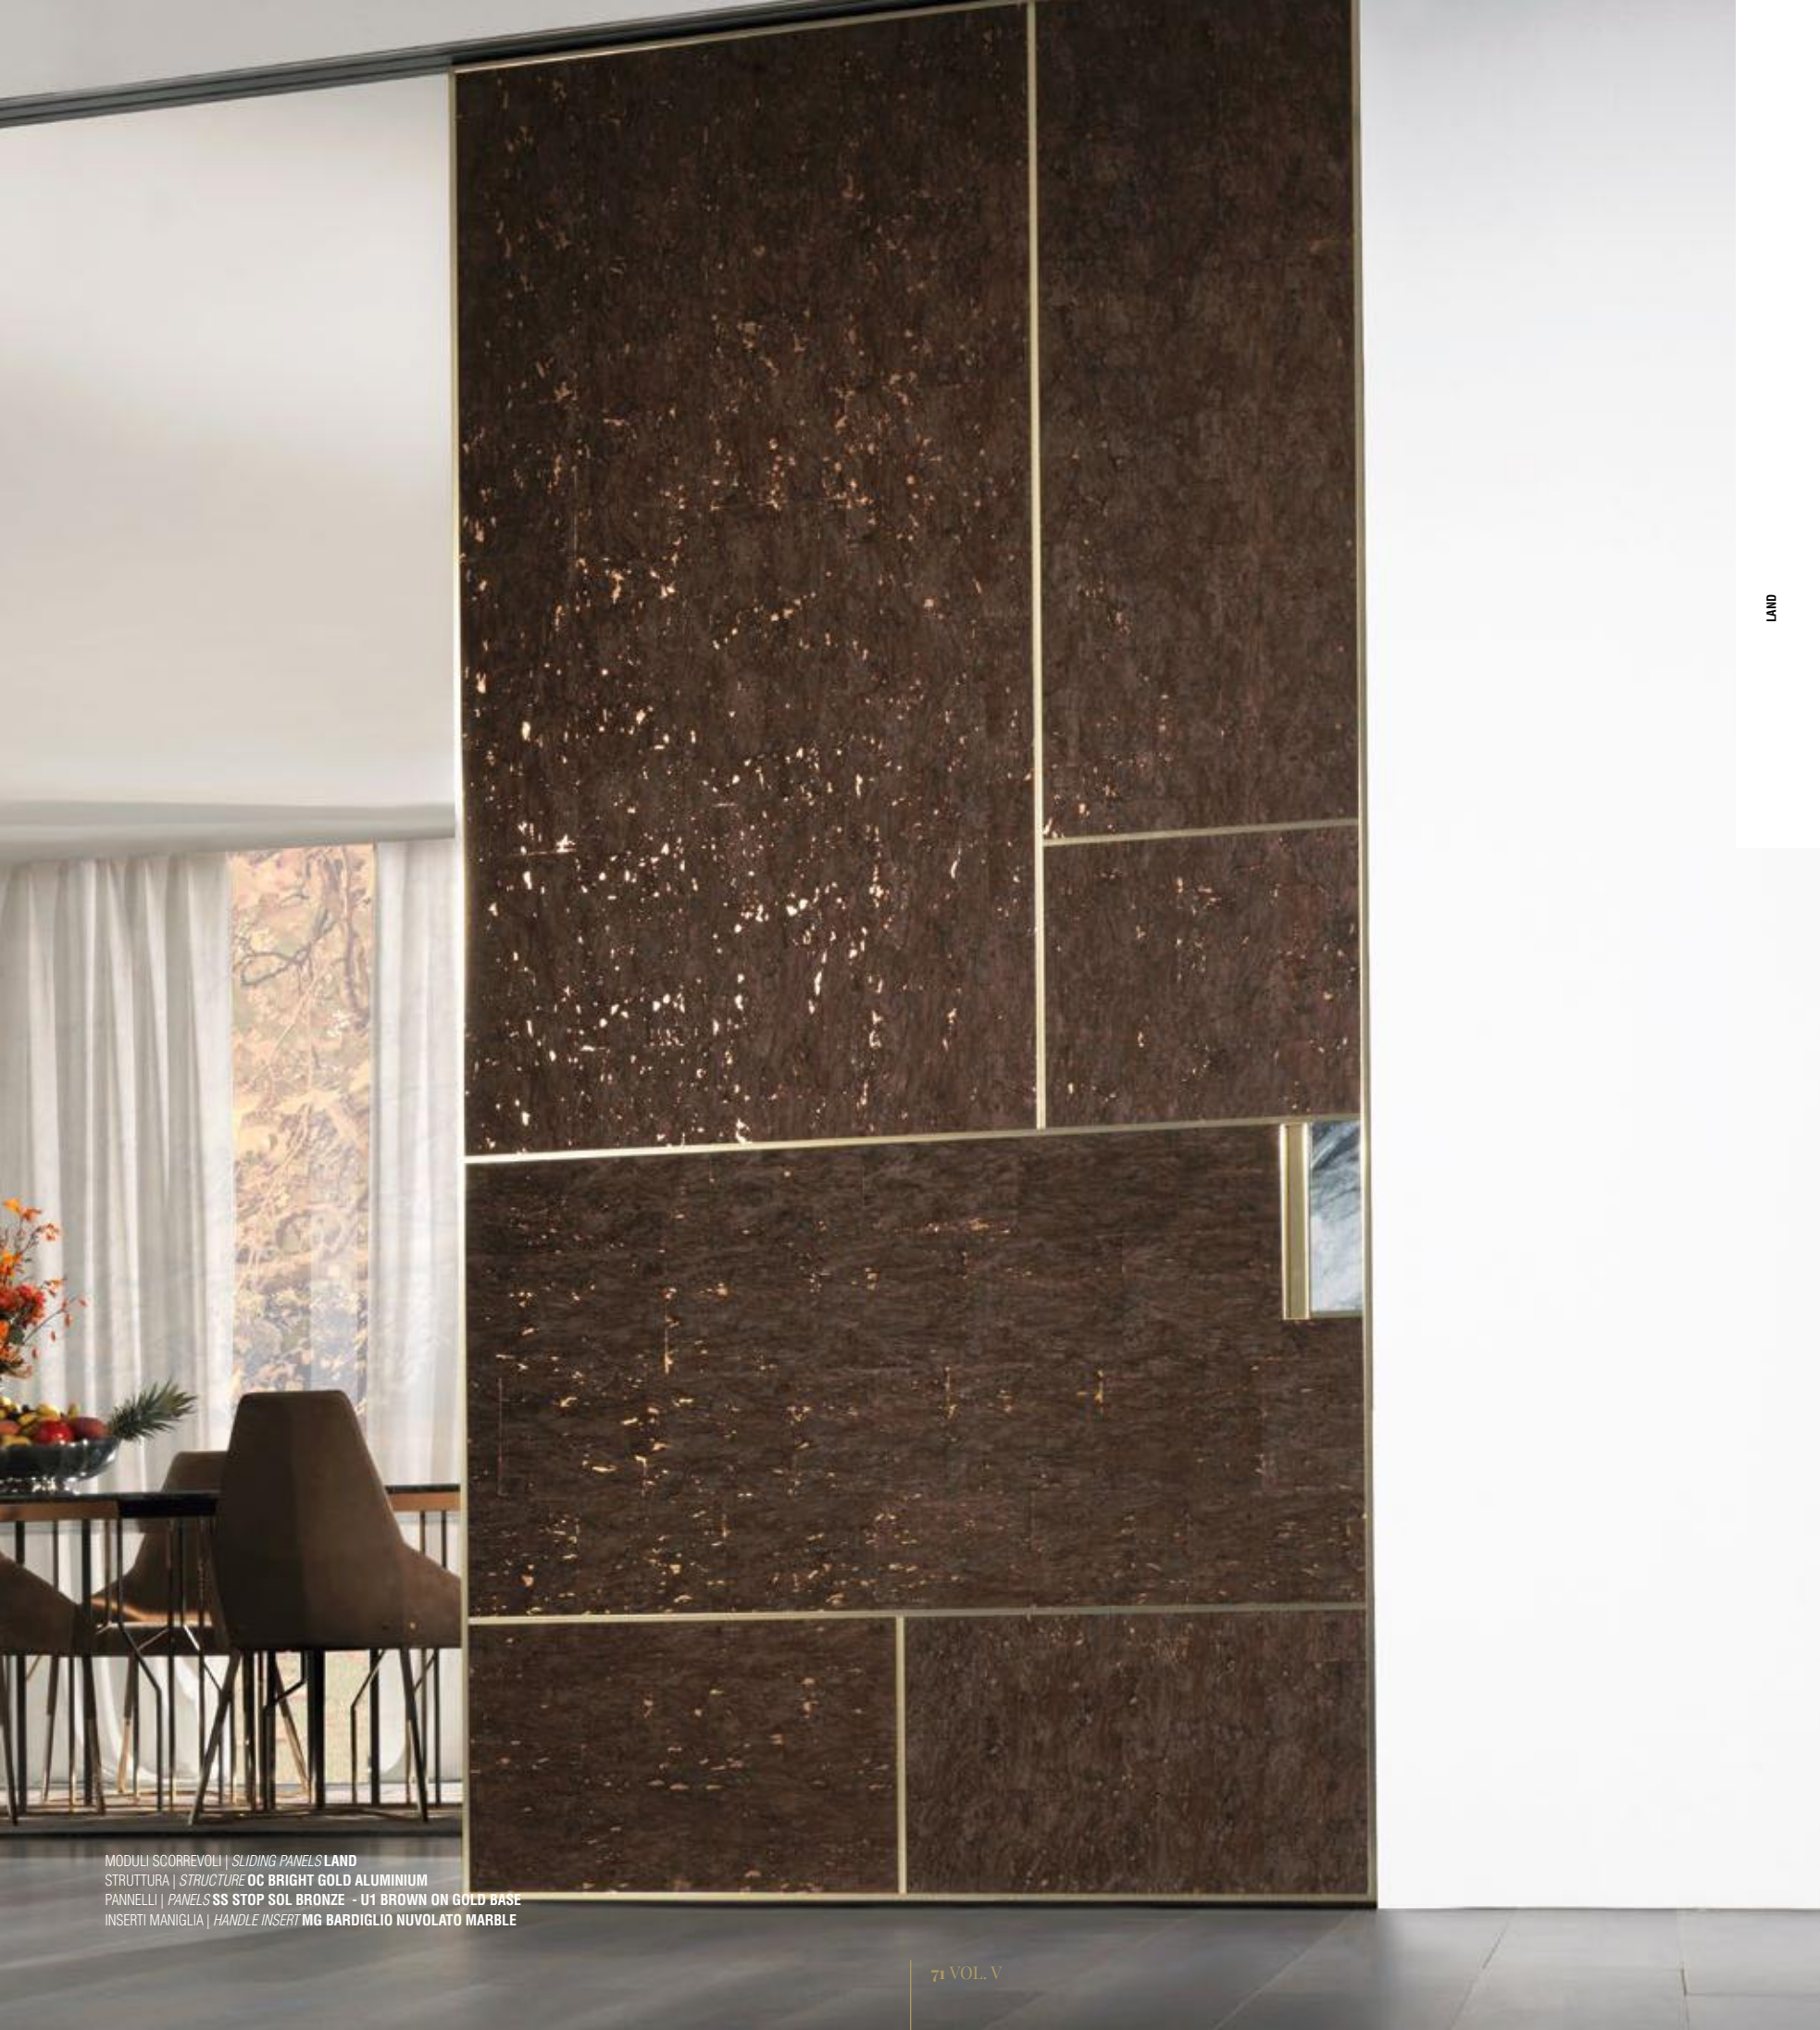

Land è un sistema costituito da moduli scorrevoli, porte battenti e boiserie abbinati a elementi di servizio che creano la possibilità di articolarsi nello spazio unendo distinto gusto e efficace funzionalità. Una vera e propria architettura domestica fatta da una progettazione su misura grazie a una ricerca minuziosa e capillare. Infinite possibilità compositive, tecnologie innovative tra accessori e luci, originali rivestimenti come per esempio la carta da sughero impreziosita da piccole schegge d'oro.

Land is a system of sliding modules, hinged doors and boiserie panels matched with accessories that create the possibility of development in space by combining distinct taste and effective functionality. This is an authentic domestic architecture made up of made-to-measure design based on careful and thorough research. Infinite composition options, innovative technologies that include accessories and lighting, original coverings – such as paper made from cork embellished with tiny golden flakes.

Land – это система, состоящая из раздвижных модулей, распашных дверей и панелей буазери, которые сочетаются со вспомогательными элементами и создают возможность развития в пространстве, объединяя изысканный вкус и эффективную функциональность. Это настоящая домашняя архитектура, представляющая собой проект «на заказ» благодаря тщательным и детальным исследованиям. Бесконечные композиционные возможности, инновационные технологии для аксессуаров и светильников, оригинальные покрытия, такие как бумага из коры пробкового дуба, украшенная мелкой золотой крошкой.

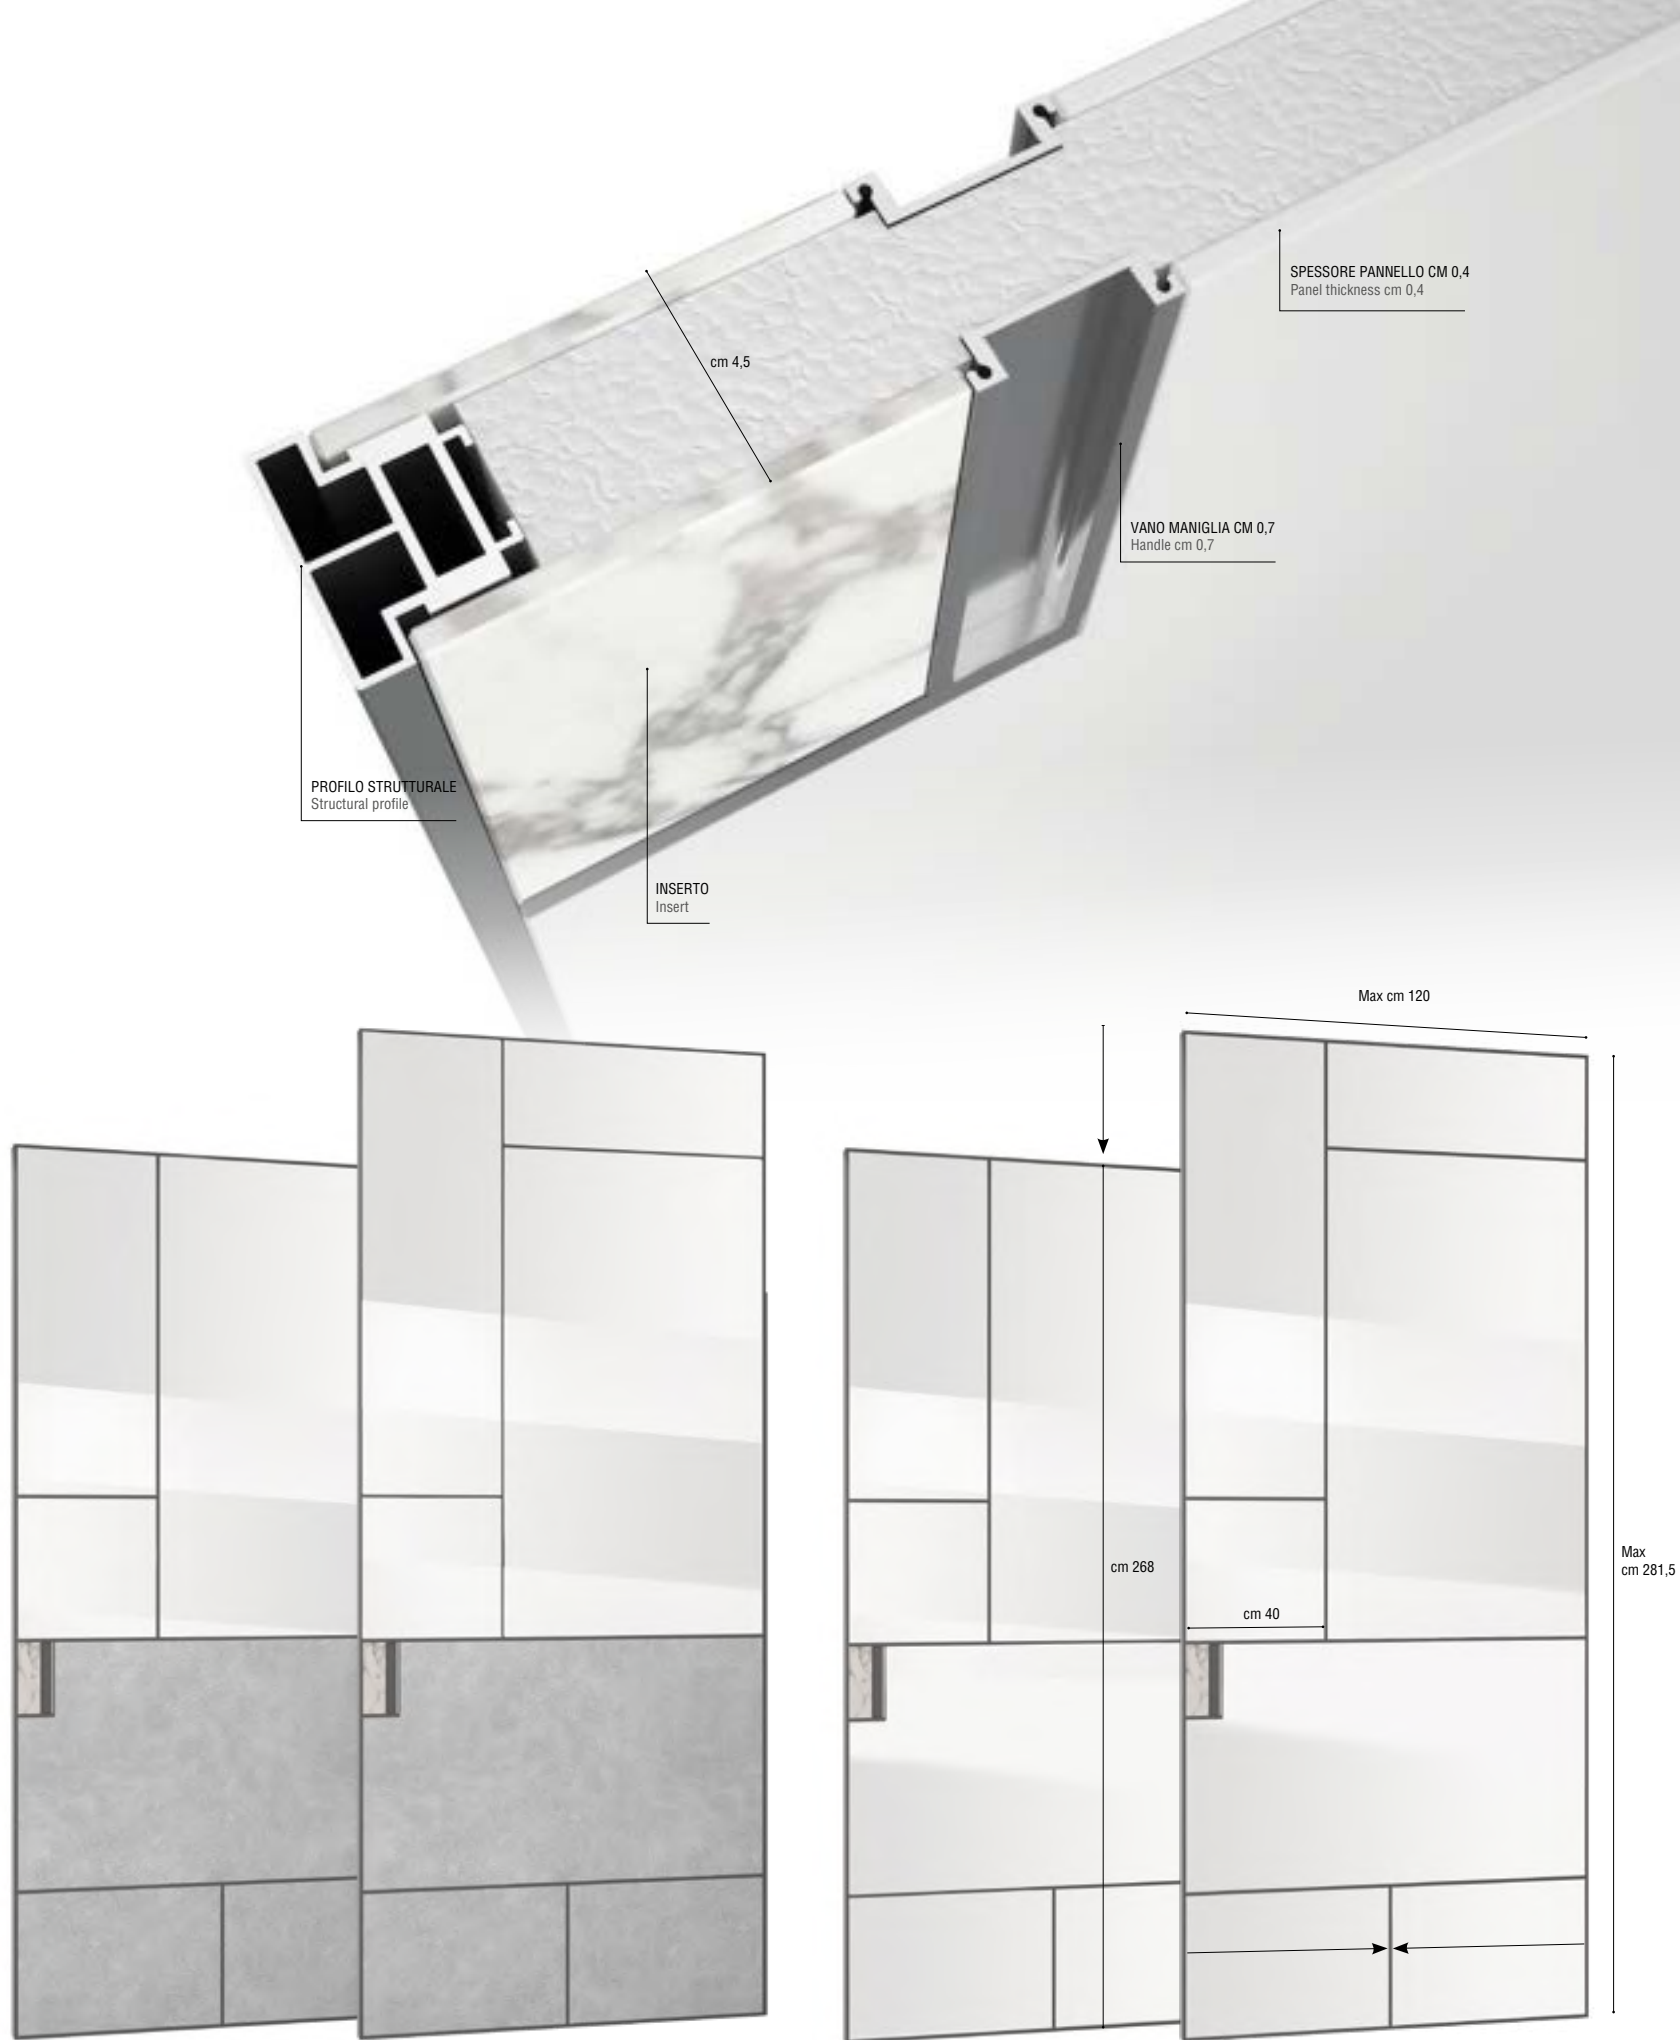

Land系统由推拉滑动模块、平开门与护墙板搭配服务性元素所组成，通过结合独特点味与有效的功能性，创造规划空间的各种可能。是一种真正以量身定制项目特制的居家建筑结构，是经过细致与深入研究所得的成果。无限的组合可能性，配件与照明间的创新科技，原创的面饰，例如，添加小金片的软木纸。

Platinum finish

La nuova colorazione per alluminio, Platino opaco, valorizza enormemente l'estetica e amplia la gamma esistente di finiture opache e lucide presenti nel catalogo Aluminium Chic. Questa nuova finitura conferisce all'alluminio un aspetto opaco sotto qualsiasi angolazione ma, la sua neutralità cromatica, se abbinata a materiali per facciata diversi, come vetro, pelle, legno, permette di creare effetti delicati e accattivanti.

The new colour for aluminium, Matt Platinum, enhances aesthetics immensely and expands the existing range of matt and glossy finishes in the Aluminium Chic catalogue. This new finish gives aluminium a matt look from any point of observation, and its chromatic neutrality – if matched with different surfaces such as glass, leather or wood – makes it possible to create delicate, captivating effects.

Новая окраска для алюминия – матовая платина – удивительным образом подчеркивает эстетику и расширяет существующую гамму матовых и глянцевых вариантов отделки, представленных в каталоге Aluminium Chic. Эта новая отделка придает алюминию матовый вид под любым углом, а ее цветовая нейтральность в сочетании с другими материалами для фасада, такими как стекло, кожа или дерево, позволяет создавать мягкие и завораживающие эффекты.

铝材新颜色，哑光白金，大大的提升了美观并扩展了Aluminium Chic型录中已推出的哑光、亮光面饰的选择性。此款新面饰赋予了铝材一种从各种角度皆展现哑光的样貌，但它中性的色调，若与不同材质搭配，如玻璃、皮料、木材，可创造出细腻且迷人的效果。

Triple jamb

Con la porta Land nasce anche un nuovo stipite: “Triple” che risulta essere lineare quanto elegante, riuscendo così ad adattarsi perfettamente a spazi minimal e moderni. Tre gradini netti che sporgono dal vano disegnando geometricamente la porta.

The Land door ushers in a new type of jamb: “Triple” is both linear and elegant, and can perfectly adapt to minimal, modern spaces. Three clearly fashioned “steps” over the door space give the door a geometric frame.

Вместе с дверью Land рождается и новая дверная коробка – «Triple». Она отличается линейностью и элегантностью и является прекрасным решением для минималистичных и современных помещений. Три чистые ступеньки выступают из проема, геометрически очерчивая дверь.

偕同Land门，诞生了一款新门框：「Triple」，简洁线型却极度优雅，如此得以完美适应极简风格或当代时尚的空间。三阶的层次从空间中突出，用几何绘制出门的轮廓。

Strong detail

Tutto in due parole: ricerca e originalità. Con la porta Land, Naurelle punta su materiali sorprendenti e texture di grande charme ma anche sulla tecnologia. Come optional solo sullo stipite “Triple” è stata studiata la possibilità di inserire un micro LED a luce bianca naturale da 0,5W-24V con accensione tramite sensore ad infrarossi di movimento. Il fascio di luce di 30°, proiettato sull'anta, illumina delicatamente la maniglia e si spegne automaticamente dopo circa 2 minuti.

Just two words: research and originality. Naurelle Land doors are made with surprising materials and charming textures, but technology is also an important factor. As an optional, the “Triple” jamb includes the possibility of placing a micro LED with natural white light (0.5W-24V that turns on with an infrared movement sensor. The 30° beam of light shines on the door to provide delicate light on the handle that automatically switches off after about 2 minutes.

Всего два слова: исследования и оригинальность. В двери Land Naurelle делает ставку на удивительные материалы и текстуры, отличающиеся огромным шармом, а также на технологию. В качестве опции только для дверной коробки «Triple» была предусмотрена возможность установки микро-светодиода с натуральным белым светом 0,5 Вт-24 В, включающегося посредством инфракрасного датчика движения. Свет падает на дверь под углом 30°, мягко освещая ручку, и автоматически выключается примерно через 2 минуты.

一切只需两个词表达：研发与原创性。关于Land门，Naurelle将焦点着重在令人惊奇的材料和极具魅力的纹理，当然技术也不被排除于外。仅「Triple」门框版本，另有可嵌入微型LED灯的选项。LED灯为白色自然光，0,5W-24V，配备红外装置侦测移动点灯传感器。30° 光束，投射于门板，细腻的照亮手把，约2分钟后自动熄灯。

Natural weave

Il lusso si unisce a materiali naturali. Il sughero viene animato da fondi e riflessi metallizzati, dagli effetti cangianti, sofisticati ed imprevedibili e si dispiega con maestria sulle pareti: una finitura scintillante tessuta manualmente.

Luxury combines with natural materials. Cork is made interesting with metal bases and reflections, with sophisticated and unexpected iridescent effects, that unfold masterfully on the walls: a glittering finish resulting from a handcrafted process.

Роскошь объединяется с натуральными материалами. Пробка оживляется металлизированными фонами и отблесками, переливчатыми, утонченными и непредсказуемыми эффектами и искусно располагается на стенах: сверкающая отделка, сотканная вручную.

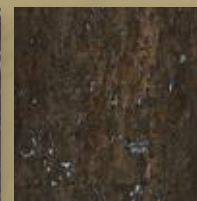

奢侈与天然材料结合。软木，由底色与金属反光，由虹彩、讲究与无可预期的效果展现亮眼特色，以优雅的气度在墙面中延展：一种以手工编织，闪闪发光的面饰。

Stylish veneer

L'attenzione al dettaglio si coniuga con l'uso di materiali esclusivi. Essenze lignee come il Sucupira Luxury, Noce Canaletto e l'Ebano ampliano la gamma di finiture del sistema Land: è la conoscenza dei materiali che richiede la giusta tecnica nel trattamento di un legno che sa seguire con naturalezza le sue venature.

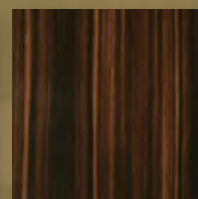

Attention to detail combines with the use exclusive materials. Woods like Luxury Sucupira, Canaletto walnut and Ebony expand the range of finishes available for the Land series. In-depth knowledge of materials is needed to use the right woodworking technique to follow its grain in a natural way.

Внимание к деталям сочетается с использованием эксклюзивных материалов. Древесные породы, такие как Сукупира роскошь, орех Canaletto и эбеновое дерево, дополняют гамму отделок системы Land. Глубокое знание материалов позволяет использовать правильные методы обработки дерева, естественным образом повторяющие его текстуру.

关注所有细节与使用独特材料相结合。精华木材，如Luxury黑金檀，黑核桃木与乌木，扩展了Land系统的面饰系列：是清楚了解木材并自然地循着木材纹路，以正确技术进行处理的结果。

IANUS

Inimitable lifestyle

Ianus è un programma mutevole, riflette i luoghi e le atmosfere, cambia natura, raccoglie le suggestioni di tanti mondi possibili, ne accetta i contrasti e li trasforma in un insieme elegante e calibrato. Ha, alla propria origine, un concept forte e determinato che lo porta ad essere essenziale ed al tempo stesso, per complessità e sicurezza di linguaggio, esuberante, ricco, sontuoso. Ianus decodifica il gusto contemporaneo e cosmopolita e lo ricomponе, senza mezzi termini o indecisioni, in un insieme di colori e materiali preziosi in un'unica, esclusiva, inimitabile idea di lifestyle.

Ianus is a versatile system that reflects the places and atmospheres it occupies, then changes its character, taking its cues from many possible worlds, accepts their differences and blends them into an elegant and balanced whole. It springs from a bold, original concept that lends it an essential and, at the same time exuberant, opulent, and sumptuous feel - thanks to the complexity and confidence of its architectural language. Ianus translates contemporary, cosmopolitan taste in unequivocal and well-defined terms through a combination of colors and precious materials, producing a unique, exclusive, unrivalled lifestyle concept.

Ianus - это изменчивый проект, который отражает места и окружение, меняет свой характер, объединяет очарование множества возможных миров, принимает их контрасты и преобразует их в элегантный и гармоничный ансамбль. В основе проекта лежит сильная и четкая концепция, придающая ему строгость, но в то же время пышность, богатство и великолепие, достигаемые благодаря сложной и уверенной форме выражения. Ianus расшифровывает современный космополитический вкус и решительно и уверенно преобразует его в ансамбль из оттенков и ценных материалов, создавая уникальную, эксклюзивную, неподражаемую идею стиля жизни.

Ianus是一套可变的系列产品，反映出场地与气氛，变化其自然性质，集取众多世界的建议，而后接受反差并将之转变成优雅与均衡的集成。它源自强烈且明确的概念，在拥有实质性本质的同时，也因其繁复与足以自傲的建筑结构，展现丰富、华丽与阔气的特质。Ianus将当代与都会品味破解后再将之重新组合，果断且毫不迟疑地，以配色与珍贵材料，组合出独一无二、专属的、无可仿效的生活风尚理念。

HEADLINE

Personally designed

Headline è una collezione di porte nata per superare i limiti comunemente imposti dalla produzione seriale. Non è un prodotto di massa ed è molto vicino all'edizione limitata, una linea di alta gamma rivolta ad un pubblico aggiornato e consapevole, in grado di leggere la cura artigianale dei dettagli tipica del “Made in Italy” e, soprattutto, capace di “scegliere”. Il vero protagonista è dunque l'acquirente, cioè colui che attingendo alla ricca gamma di possibilità offerte dalla combinazione tra decori esclusivi, essenze pregiate ed altri materiali quali acciaio e vetri, diventa parte attiva nel processo creativo che porterà alla definizione di un suo stile unico e individuale: “Personally designed”.

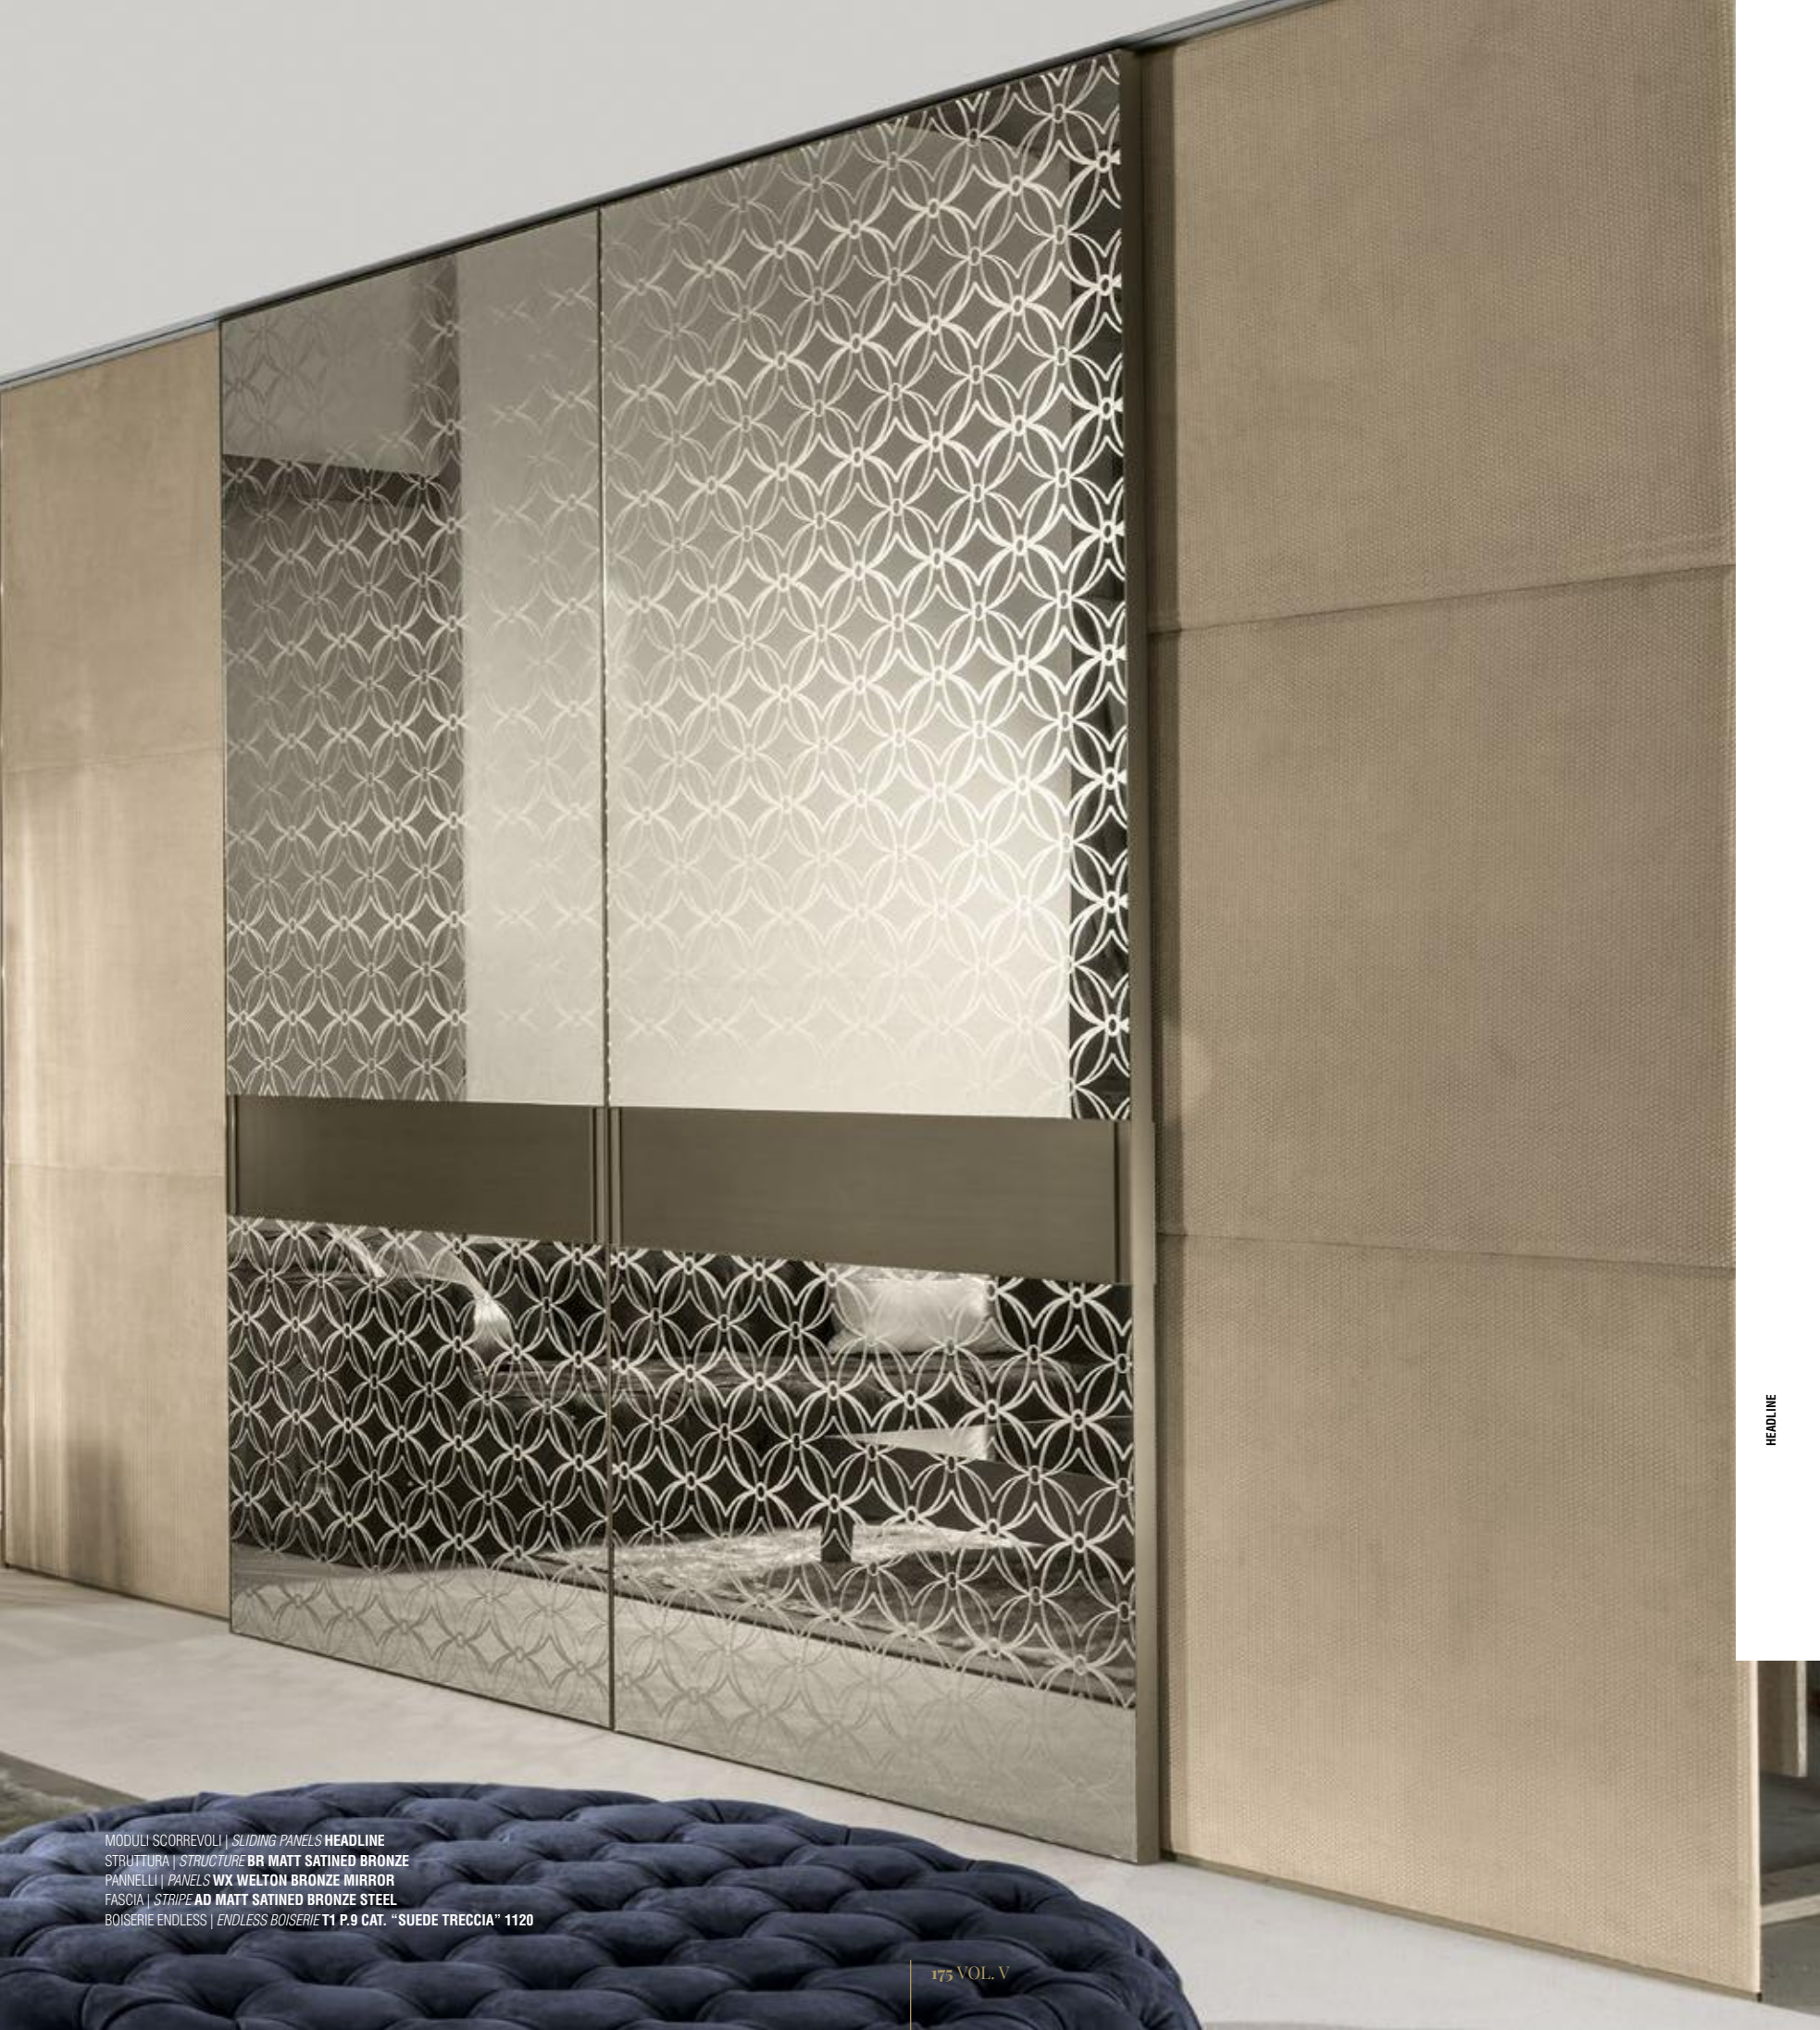

Headline is a collection of doors designed to overcome the limitations imposed by mass production. Far from an ‘assembly line’ product, this collection is much closer to a limited edition, a top-of-the-line serie for the savvy client who appreciates the craftsmanship and detailing typical of “made in Italy” products, and above all, capable of making choices. The client, rather than the product, is at the center of this collection: selecting from the wide range of choices offered by the exclusive decorations, the valuable woods, and other materials such as steel and glass. The client actively participates in the creative process, leading to the definition of a unique and personal style: “Personally designed”.

Коллекция дверей Headline создана, чтобы обойти ограничения, обычно накладываемые серийным производством. Это не массовая продукция, она скорее ближе к продукции ограниченного тиража. Эта коллекция высокого уровня была задумана для современных людей, умеющих ценить свойственные итальянскому производству высокое качество и аккуратность обработки деталей и, самое главное, умеющих «выбирать». Таким образом, главным действующим лицом становится покупатель, который, выбирая из богатейшего ассортимента возможных комбинаций эксклюзивных декоративных деталей, ценных пород дерева и других материалов, таких как сталь и стекло, сам принимает активное участие в творческом процессе, результатом которого становится создание своего собственного и неповторимого стиля «Personally designed».

Headline系列门的诞生，是为了超越量产制式门所设定的限制。非量产几乎是类似限量生产的制品，是一套献给精明客户的精品。献给懂得赞赏「意大利制造」手工艺制品的经典细节，并特别懂得「选择」的人士。因此，真正的主角是买家，献给期望在专属装饰、珍贵木材与其他如钢或玻璃材料之间获得独特搭配，并使一切成为一种能定义出个人独特风格的个性化创意产品，也就是：「亲自设计」的客户。

Bespoke to you

“Bespoke to you” esprime la possibilità, offerta all’acquirente dalla collezione Headline, di combinare, secondo la propria sensibilità e il proprio gusto, materiali particolari ed esclusivi che rendono la porta un elemento protagonista dell’arredamento.

“Bespoke to you” refers to the opportunity for buyers of the Headline collection to express their own personal taste and skill in combining the special, exclusive materials which cast the door in a starring role in home interior design.

«Изготовление по индивидуальному заказу». Коллекция Headline предоставляет своим покупателям возможность комбинировать по собственному вкусу необычные и эксклюзивные материалы, благодаря которым дверь становится важнейшим элементом интерьера.

you」是Headline系列给予买家表达自我的产品，可依据自我喜好与品味，选择独特材质做出专属搭配，从而使这扇门成为家具元素的主角。

DOORS WEAR
LORO PIANA
INTERIORS

Loro Piana Interiors® insert

Per rendere unica la propria casa, oltre i divani e i complementi Loveluxe anche le porte Alluminium Chic vestono i tessuti Loro Piana Interiors®. Cashmere e pregiate lane merinos si fondono con lino o seta, creando rivestimenti ideali per la realizzazione di decori. La caratteristica fascia centrale, che determina lo stile Headline, diventa così un esclusivo dettaglio che conferisce originalità e ricchezza alla porta. I tessuti sono declinati in diverse texture, tinta unita o rigati, i colori scelti consentono di coordinare la superficie liscia del vetro con il velour dell'elegante inserto.

The Made in Italy industry is strictly correlated with Tailor Made and Made to Order products and for this reason the new collection has a wide range of the most exclusive materials. As if they were in an atelier, Loveluxe collection complements wear exclusive fabrics from Loro Piana Interiors: the best cashmere and merinos wool are combined with linen and silk. These light-weight, warm and enveloping fabrics are made of noble fibres and fine materials purchased in the countries of origin, and then processed in Italy with rigorous supervision of every production phase.

Для придания дому уникальности, кроме диванов и аксессуаров Loveluxe, двери Alluminium Chic тоже облачаются в ткани Loro Piana Interiors®. Кашемир и ценная шерсть мериноса сливаются со льном или шелком, создавая идеальные покрытия для реализации декора. Характерная центральная полоса, определяющая стиль Headline, становится эксклюзивной деталью, которая придает двери оригинальность и пышность. Используются ткани с различной текстурой, однотонные или в полоску, а выбранные цвета позволяют гармонично сочетать гладкую поверхность стекла с бархатистостью элегантной вставки.

为了让自己的家真正独特，除了Loveluxe沙发和家饰家具外，也不能忽略以Loro Piana Interiors®面料饰面的Alluminium Chic门。开士米羊绒和珍贵的美丽奴羊毛，融合在麻或丝缎的面料中，创造出一种展现装饰价值的理想面饰。独具特色的中央饰带，定义着Headline的风格，并成了赋予门丰富性与原创性的独特细节。共有多种纹理的面料，单色或条纹；可选的颜色使平滑的玻璃表面与优雅的丝绒嵌饰得以成套搭配。

Art design

Le forme sporgendo dal piano di fondo si identificano in un tradizionale bassorilievo, espressione di arte, cultura e classicità. Realizzazione eseguita artigianalmente in gesso.

The figures that protrude from the bottom are inspired by traditional bas-relief, an expression of art, culture and classicism. Hand crafted plaster.

Формы, выступающие над плоскостью фона, уподобляются обычному барельефу, выражению искусства, культуры и классического стиля. Ручная работа с использованием гипса.

从平面中凸出的纹路通过传统浅浮雕的型态展现，是一种艺术、文化与古典的表现。石膏材质，以手工制成。

Limited edition

La porta battente, priva di stipiti visibili, disegna nitide campiture sulla parete, senza turbarne la continuità della superficie. La porta battente o i pannelli scorrevoli diventano protagonisti nei progetti dell'habitat contemporaneo.

The swing door, with no visible jambs, traces sharp outlines on the wall without disrupting its surface continuity. The traditional door or sliding panels take center stage in modern living projects.

Распашная дверь без видимых элементов дверной коробки рисует на стене четкие линии, не нарушая целостности поверхности. Распашная дверь или раздвижные панели становятся главными действующими лицами проектов современного интерьера.

平开门，无可见门框，在墙面上清楚画出轮廓，却不阻扰表面的延续感。平开门或滑动面板，成为当代家居项目的主角。

SPARK

Boundless versatility

Leggerezza e raffinata eleganza sono i tratti comuni nelle soluzioni proposte dal sistema Spark. Le sottili ma robuste strutture in alluminio anodizzato naturale, in elettrocolore moro o rivestite in essenza, contengono vetri stratificati conformi alle norme di sicurezza e temperati con esclusivi decori personalizzati. Spark è disponibile nelle tre tipologie estetiche: 4 riquadri, 2 riquadri e a specchiatura intera.

Lightness and refined elegance are the common features of solutions offered by the Spark system. The thin but sturdy structures in natural anodised aluminium, in electrocolour dark brown or wood veneer, contain tempered laminated glass compliant with safety standards and adorned with exclusive personalised decorations. Spark comes in the following three aesthetic typologies: 4 panes, 2 panes, and full-size glass.

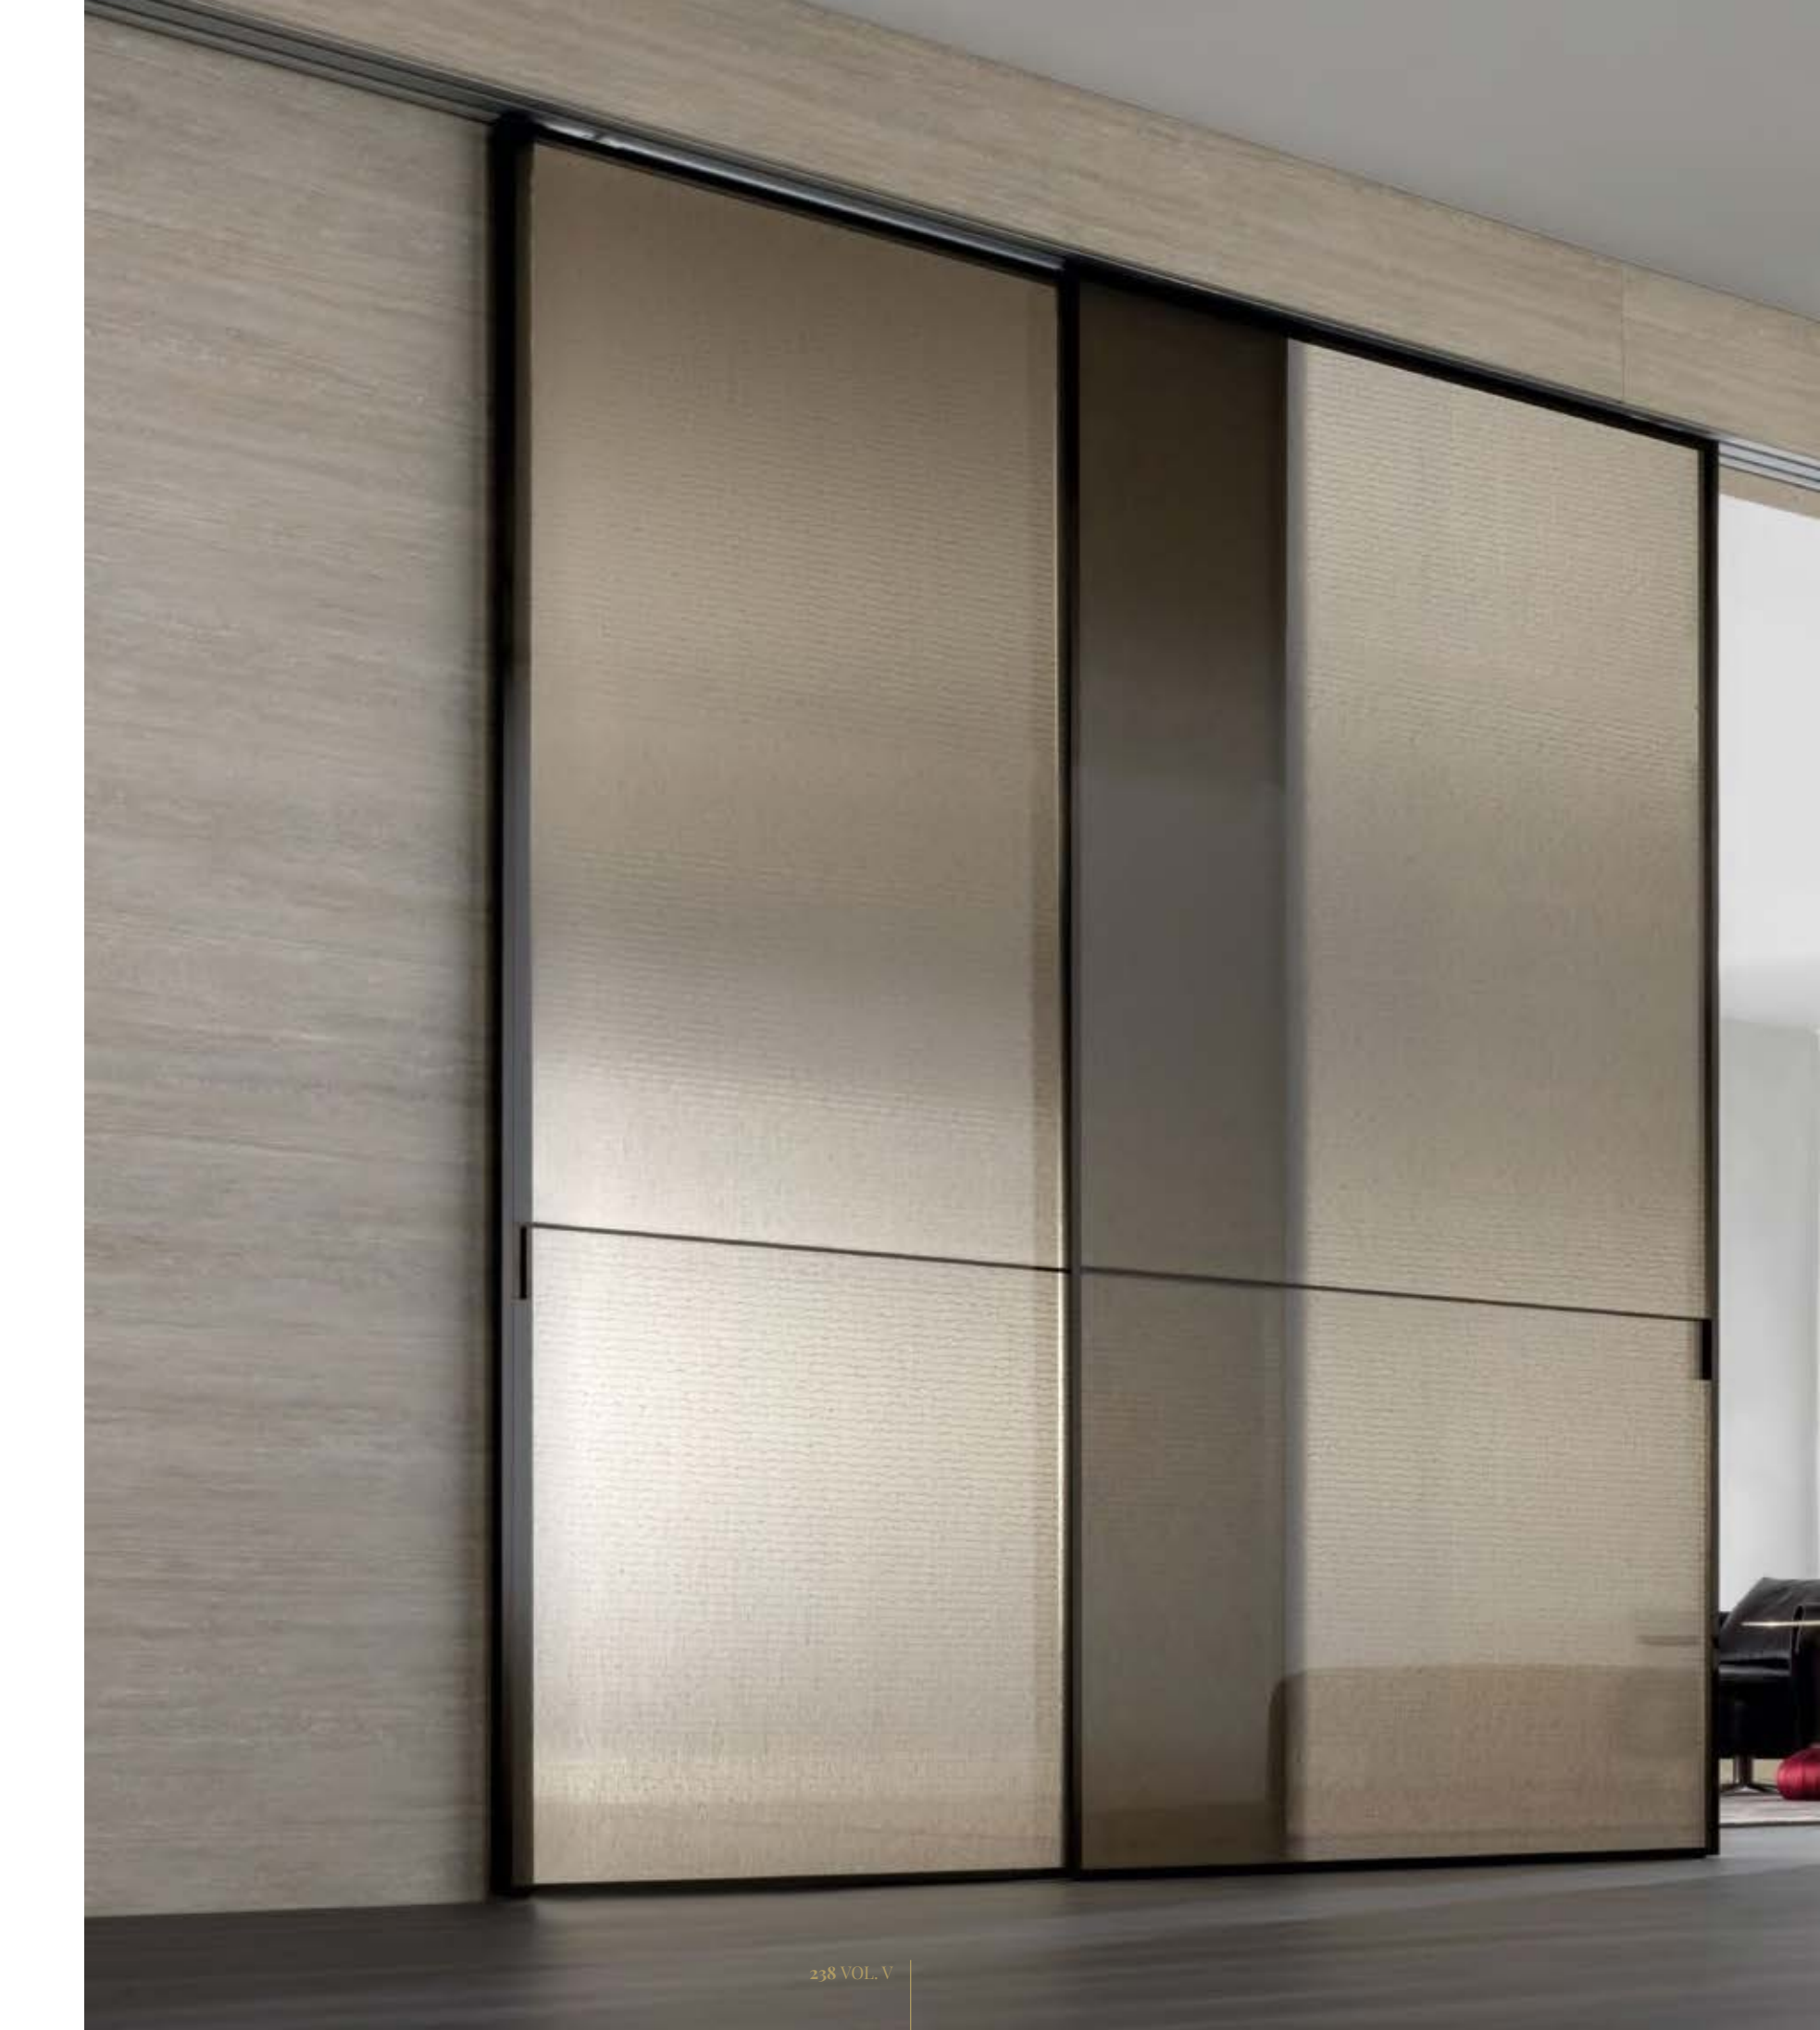

Легкость и изысканная элегантность – общие черты решений, предлагаемых системой Spark. Тонкие, но прочные конструкции из алюминия с натуральной анодированной отделкой, темно-коричневой электроокраской или облицованные деревом, содержат многослойное и закаленное стекло, отвечающее стандартам безопасности и украшенное эксклюзивным персонализированным декором. Система Spark выпускается в трех вариантах: 4 панели, 2 панели и цельное стекло.

轻柔与精致的优雅，是Spark系统解决方案的特色。细薄却坚固的结构以原色阳极氧化铝，电解深棕色或外覆木材的样貌展现。内夹带个性化装饰，符合安全标准并经过强化处理的夹层玻璃。Spark推出三种样式：4格，2格以及整面镜面样式。

Eco wood

I profili in alluminio sono rivestiti da un'impiallacciatura di legno multilaminare che garantisce uniformità cromatica costante nel tempo ma soprattutto agisce nel massimo rispetto del territorio: le essenze selezionate e certificate provengono da foreste con gestione a basso impatto ambientale.

Aluminium profiles are veneered in multi-laminate wood that guarantees uniform colour. The veneer will not fade, and is environmentally friendly: the woods come from certified low impact forests.

Алюминиевые профили имеют отделку из многослойного шпона, обеспечивающего не только не изменяющуюся во времени равномерность цвета, но и, прежде всего – максимальную охрану территории, т. к. используются породы дерева из сертифицированных лесов с экологическим управлением.

铝材边框外覆多层木贴面板，以确保长时间保有色彩均匀的特色，此外也做到环保尊重领土：选用的木材皆经过认证，源自在管理上对环境造成低冲击的森林。

Delicate touch

L'attenzione al dettaglio si coniuga con l'uso di materiali esclusivi. Essenze lignee come il Sucupira Luxury, Noce Canaletto e l'Ebano ampliano la gamma di finiture del sistema Land: è la conoscenza dei materiali che richiede la giusta tecnica nel trattamento di un legno che sa seguire con naturalezza le sue venature.

Attention to detail combines with the use exclusive materials. Woods like Luxury Sucupira, Canaletto walnut and Ebony expand the range of finishes available for the Land series. In-depth knowledge of materials is needed to use the right woodworking technique to follow its grain in a natural way.

Внимание к деталям сочетается с использованием эксклюзивных материалов. Древесные породы, такие как Сукупира роскошь, орех Canaletto и эбеновое дерево, дополняют гамму отделок системы Land. Глубокое знание материалов позволяет использовать правильные методы обработки дерева, естественным образом повторяющие его текстуру.

关注所有细节与使用独特材料相互结合。精华木材，如Luxury黑金檀，黑核桃木与乌木，扩展了Land系统的面饰系列：是清楚了解木材并自然地循着木材纹路，以正确技术进行处理的成果。

Doral design

I due decori Doral e Welton sono proposti in diverse varianti di colore e trasparenze. Riflessi che donano qualcosa di etereo sospeso tra l'antico e il moderno.

The two decorations Welton and Doral are presented in different colours and levels of transparency. Reflections that lend a hint of something ethereal suspended between the ancient and the modern.

Два декора Doral и Welton предлагаются в различных цветовых вариантах, с многочисленными прозрачными эффектами. Отблески, придающие нечто воздушное, находящееся на полпути между древним и современным.

Handle and jamb

La maniglia, realizzata su progetto di Giuseppe Iasparra, è espressamente dedicata al programma Alley. La particolare forma chiude in essa materiali opulenti, marmi, onici o morbide pelli. Lo stipite, invece, è la rilettura moderna di uno stile Neoclassico, morbido nel tratto, curvilineo fa risplendere una casa deluxe. Alley è un progetto completo dove la tradizione incontra un design rigoroso creando un'assoluta armonia di stile. Dona ancora più vigore la seconda finitura scelta per presentare la boiserie: il mogano tinto scuro.

The handle, designed by Giuseppe Iasparra, is expressly dedicated to the Alley line. Its particular shape encloses opulent materials such as marble, onyx or soft leathers. The jamb, on the other hand, is a modern version of Neoclassical style with a soft curved shape that gives splendour to the deluxe home. Alley is a complete project where tradition encounters rigorous design to create an absolute harmony of style. The second finish chosen to present the boiserie wall covering gives even more strength: dark stained mahogany.

Ручка изготовлена по проекту Джузеппе Яспарры специально для системы Alley. Особая форма скрывает в ней богатые материалы, мрамор, оникс или мягкую кожу. Дверная коробка, отличающаяся мягкими изогнутыми линиями, представляет собой современную интерпретацию неоклассицизма и придает особый блеск роскошному интерьеру. Alley – это совершенный проект, где традиция сочетается со строгим дизайном, создавая абсолютную гармонию стиля. Еще большую энергию придает вторая отделка буазери – красное дерево, тони

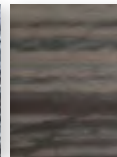

把手，建立在Giuseppe Iasparra的项目上，是献给Alley系列的设计。独特的型态中覆盖了华丽的材料，如大理石，缟玛瑙或柔软皮料。门框，则是新古典主义风格的现代化诠释，柔和的线条，圆弧形态，使豪华家居更散发光彩。Alley是传统与严谨设计交会的全套项目，可营造一种绝对和谐的风格。所推出的护壁板第二种选项：深色桃花心木，进一步赋予更有力的气度。

LORD

Contemporary living

Porta caratterizzata dall'accurata ricerca di materiali e finiture: il Sucupira Luxury opaco, il rovere thermo-smoked, il larice scolpito laccato, il rivestimento in camoscio o in pelle e il poliestere lucido brillante rendono Lord protagonista del living contemporaneo. L'esclusivo design della maniglia Naurelle è abbinato a una serratura magnetica, disponibile con o senza nottolino di chiusura oppure con chiave.

This door epitomizes the quest for just the right materials and finishes. The matt Sucupira Luxury, thermo smoked oak, carved lacquered larch, suede or leather upholstery and shiny polyester make "Lord" an icon of contemporary living. The exclusive Naurelle handle design is paired with a magnetic latch, available with or without locking mechanism or with key.

Эксклюзивный дизайн ручки Naurelle сочетается с магнитным замком, который может выполняться с защелкой или без нее или оснащаться ключом.

独特门系列，采用精心挑选的材质与面饰制成：哑光Luxury黑金檀，热烟熏栎木，雕刻涂饰落叶松；面饰则有麂皮、皮料和亮光聚酯纤维。这些使此系列产品成了当代风格客厅的主角。独特设计的Naurelle手把，搭配磁性锁，可选带或不带锁芯或带钥匙版本。

SCREEN

Fuctional design

Screen è un sistema espressamente dedicato alle chiusure di cabine armadio, piccoli spazi e nicchie. Infatti i pannelli scorrevoli sono caratterizzati da una lastra di vetro posta solo sulla parte frontale della struttura ed i profili d'alluminio sono dotati di specifiche guarnizioni e spazzoline antipolvere.

Screen system is expressly made for closing walk-in closets, small spaces and niches. The sliding panels have a sheet of glass only on the front part of the structure and the aluminium profiles have special gaskets and anti-dust brushes.

Screen - это система, предназначенная для закрытия гардеробных комнат, небольших пространств и ниш. Раздвижные панели характеризует наличие стеклянного листа только в передней части конструкции, а алюминиевые профили оборудованы специальными прокладками и щетками для защиты от пыли.

Screen是一款专为步入式衣帽间、小空间与壁龛设计的闭门系统。其滑动门板皆只有结构的正面带玻璃板，而铝质边框则备有独特的密封条及防尘刷。

VERTICAL

Modular closet

La cabina armadio Vertical è dotata di una ricca gamma di attrezzature nelle diverse finiture. Degno di nota è sicuramente la finitura elettrocolore moro per l'alluminio. Le mensole, grazie all'esclusivo sistema di fissaggio, si possono posizionare all'altezza desiderata. I montanti bloccabili tra pavimento e soffitto, o fissabili a parete, permettono di configurare liberamente soluzioni per ogni particolare esigenza. Le pareti si possono rivestire con la boiserie modulare (è possibile anche il taglio su misura), disponibile nelle finiture melaminico bianco, melaminico wengé, in vetro o pelle.

The Vertical walk-in wardrobe has a rich range of accessories and equipment in the different finishes. One important item is the electrocolour dark brown finish for aluminium. The shelves can be fastened at the desired height, thanks to the exclusive fastening system. The uprights can be secured between floor and ceiling, or fastened onto the wall, so that various solutions can be put together to suit particular needs. The walls can be covered with modular boiserie panels (which also can be ordered to measure) available in the finishes: white melamine, wenge melamine, glass or leather.

Гардеробная комната Vertical оснащена богатой гаммой приспособлений с различной отделкой, включая новую темно-коричневую электроокраску для алюминия. Благодаря эксклюзивной системе крепления полки могут устанавливаться на необходимую высоту. Стойки, фиксируемые между полом и потолком или закрепляемые на стене, предоставляют максимальную свободу при создании любых композиционных решений. Стены могут покрываться модульными панелями буазери (возможна резка по размерам) с отделкой белый меламин, меламин венге, из стекла или кожи.

Vertical步入式衣帽间备有一系列不同面饰的装置设备。特别引人注目的肯定是电解深棕色饰面的铝材。层板，由于独特的固定系统，可摆置在任意期望的高度。锁止式支撑结构可设置在地板与天花板之间，或固定于墙面上，提供了可依据各种需求自由配置解决方案的优势。墙面，可使用模块化护壁板装饰（也可依所需尺寸裁切），可选不同面饰：白色刨花板，鸡翅木刨花板，玻璃或皮料。

Elegant

Wall decoration

Il sistema di Boiserie Elegant è caratterizzato da molteplici modularità che permettono di arricchire l'ambiente attraverso eleganti finiture e di rivestire le pareti di tutta la casa. L'elemento caratterizzante è il vano centrale che percorre linearmente la lunghezza della parete e impreziosisce la superficie grazie ad eleganti inserti illuminati da luce LED. Con l'aggiunta del suo letto coordinato, la boiserie Elegant, riesce a vestire anche una camera da letto.

The Boiserie Elegant system has many modular features that make it possible to enhance rooms with elegant finishes and to outfit walls throughout the home. The main element is the central compartment, which runs linearly along the length of the wall and enhances the surface with elegant inserts lighted by LED sources. If the coordinated bed is added, the Boiserie Elegant can outfit an entire bedroom.

Система буазери Elegant отличается многочисленными модульными решениями, позволяющими придать интерьеру особую красоту благодаря элегантным отделкам и декорировать стены всего дома. Отличительным элементом системы является центральная ниша, которая линейно проходит по всей длине стены и украшает поверхность благодаря элегантным вставкам со светодиодной подсветкой. Буазери Elegant может дополняться кроватью, позволяя таким образом облачить даже спальню.

Elegant护壁板系统，以可丰富环境的多重模块化特性展现特色，可通过优雅的饰面覆盖家中所有墙面。中央空间是展现独特风格的元素，线型线条沿着墙面延展，并可搭配优雅的表面嵌饰及LED灯光照明增添点缀。搭配配套的床具，此Elegant护壁板，也能完美装潢寝室空间。

LAND

Modular system

La Boiserie Land è un sistema modulare che unisce porte, pannelli scorrevoli, boiserie e mobili contenitori di servizio. Si caratterizza per un'estrema adattabilità ad ogni tipo di ambiente, per i materiali utilizzati, ma soprattutto per le linee parallele e perpendicolari scandite da profili metallici che definiscono in maniera contemporanea e moderna la superficie. La serie comprende molteplici abbinamenti e modularità dalle dimensioni quasi personalizzate. Il sistema è diviso per moduli e si articola in diverse larghezze e possibilità di aperture.

The Boiserie Land is a modular system that unites doors, sliding panels, boiserie panels and storage units. It is extremely adaptable to any type of room for the materials used in construction, but most of all, for its parallel and perpendicular lines marked with metal profiles that define the surface with a contemporary, modern style. The series includes many combinations and different sized modules, for an almost personalised result. The system is divided into modules, and offers several widths and opening styles.

Буазери Land – это модульная система, объединяющая двери, раздвижные панели, панели буазери и системы хранения. Она прекрасно адаптируется к любому помещению благодаря используемым материалам и, прежде всего, благодаря параллельным и перпендикулярным линиям, перемежающимся металлическими профилями, которые придают поверхности современный характер. Серия включает многочисленные сочетания и модульные решения с практически индивидуальными размерами. Система подразделена на модули и имеет различные варианты ширины и возможности открытия.

Land护壁板是一套模块化系统，将门、滑动面板、护壁板和收纳柜整合于一。以极度可适应每种环境的特点展现特色，不但可归功于所采用的材质，更因镶嵌金属条的垂直和并行线条，能以当代时尚与充满现代感的方式完美定义墙面。系列中可有多重搭配与几乎可定制化的多种尺寸的模块。此系统以模块区分，可有不同宽度的搭配并可当作可开的面板使用。
